

Best Quality Smart Door Lock KOREA

THE FUNCTIONS OF EPIC DOOR LOCK

EPIC digital door locks are equipped with a range of essential features across all models. Enjoy superior convenience and reliability.

Adminstrator Functions

Manage access easily with 3-Tier User Levels.

Auto Lock / Manual Lock

You can set deadbolt locking method.

Sound Setting

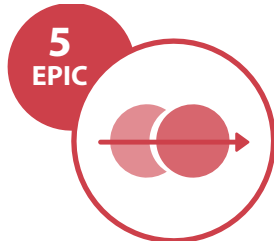

Sound Setting lets you control the door lock's sound level.

Forced Lock

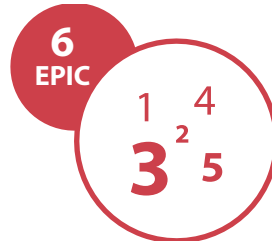

Internal / External Forced Lock lets you block access from both inside and outside.

Dual Authentication

Enhance security with Dual Authentication.

Dummy Number

The Dummy Number feature prevents the risk of Pin exposure.

Warning Function

An alarm will sound in case of intrusion, fire, or low battery.

Emergency Battery

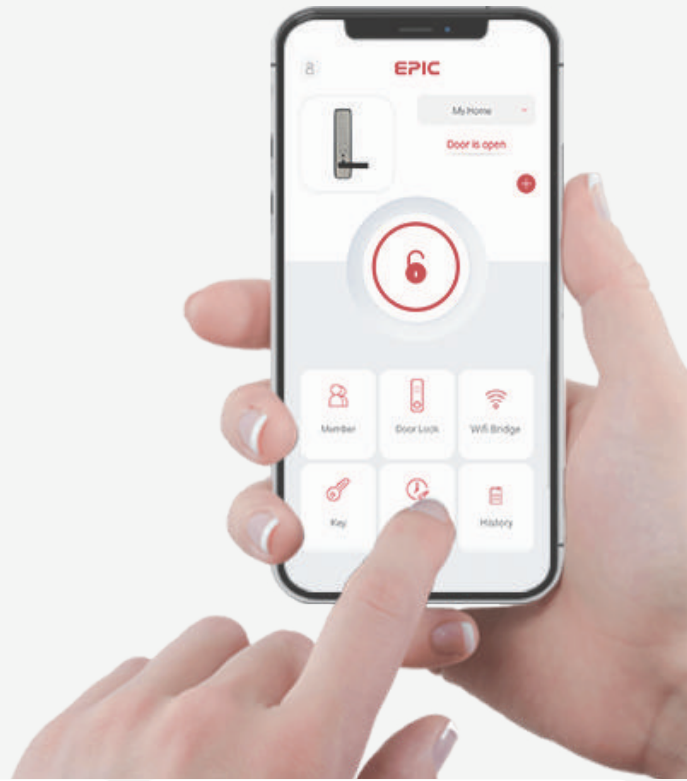

Emergency power supply lets you operate the door lock when the battery runs out.

Best application for door lock management

EPIC Things(BLE)

Remote door opening/closing

Remotely control the door lock's opening and closing from the **Main screen**.

Sharing control permissions

Through the **Member** feature, door lock access can be remotely shared with users.

Firmware update support

Periodically update the firmware of the door lock being used through the **Door Lock** feature.

Smart push notifications

Provide real-time access notifications to the administrator through the **Wi-fi bridge** feature.

Key registration

Simplify the door lock authentication registration process through the **Key** feature.

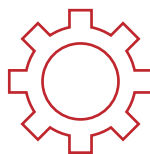

Guest key creation and sharing

Remotely share door lock access permissions for a specific period through the **Guest Key** feature.

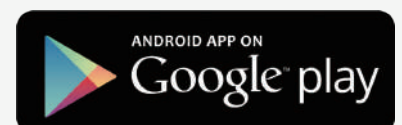

Access history check

Check and manage access records through the **History** feature.

Using apps in various languages

Use the app in the preferred language by selecting it through the **App Settings** feature.
